Copy of letter no: 571 dated the 29th July 1895, from the Chief Commissariat Officer Bangalore District, to the Assistant Adjutant General, Bangalore District.

The Road leading from the Govt. slaughter house to the Ration sheds of the Field Batteries and Stewards and British Infantry Regiment, is in a very bad state. It is difficult for the meat carts to make their way across and the ensuing monsoons will cause further breaches and make the road almost impassible causing delays in the arrival of these carts, at their various destinations. The road in question is not within the limits of the Civil and Military station. It is within Mysore territory and in the event of any repairs being sanctioned they should be carried out by the Pettah Municipal authorities. Has the honor therefore to request that necessary steps may be taken to have the

repairs carried out at an early date.
The matter is an urgent one.

To Dear Sir,

Your official letter No. 571 of the 27th instant to the A.A.G. has been sent to us for necessary action. Will you kindly let me know what road you refer to? Has it a name? The Slaughter House, it is believed, just outside the station boundary near Stone Boundary XXVI and the Ration Stands lie to the North, the road then from the former to the latter would be within Station limits except the very small portion at the beginning. Is it this small portion you refer to? If you could give me a rough sketch showing Slaughter House, ration stands and the road you refer to, I should be much obliged.

Yours Truly

The road referred to is the one leading from the Slaughter House to the Barracks in a Northerly direction - please see rough plan overleaf - and I appear to have been in error in thinking it was outside of municipal limits, except the lower portion of the road, near the Slaughter house which
